

Welcome to Cover Whale, Lydia Ramos!

Welcome to Your First Week at Cover Whale!

Welcome to the team! We're thrilled that you've joined a company where energy, collaboration, and purpose drive everything we do. From day one, you'll feel the momentum of a team that moves fast, supports one another, and celebrates the enthusiasm that fuels our success.

Your onboarding journey is designed not only to help you understand your role and our business but to connect you with the people and culture that make Cover Whale an extraordinary place to grow your career. The first week sets the tone for your success — one built on curiosity, teamwork, and a shared commitment to making an impact together.

Our onboarding program follows six key stages, each designed to help you learn, connect, and contribute while reinforcing our culture of drive and collaboration. You'll be encouraged to build relationships, share ideas, and embrace a high-energy environment where feedback and growth are part of everyday work.

Start Date — Monday, May 4, 2026

The Six Stages of Onboarding

1. Preboarding – IT Onboarding

Before your first day, our IT and HR teams ensure your tools and systems are ready for you to hit the ground running.

2. Day One – Orientation

Day One is all about connection and excitement. You'll meet your team, learn our mission and values, and see how your work contributes to our bigger vision. We'll introduce you to the high-energy, collaborative culture that sets us apart.

3. Week One – Inclusion Survey

During your first week, you'll share feedback through a short inclusion survey. Your perspective helps us continue building an environment where every team member feels respected, welcomed, and part of something bigger. Inclusion fuels collaboration, and collaboration drives innovation.

4. 30-Day – Learning Check-In and Survey

After your first month, you'll meet with your manager to reflect on what you've learned. This check-in is an opportunity to celebrate progress, ask questions, and explore how to grow your confidence and knowledge in a fast-paced, supportive setting.

5. 60-Day – Contributing Check-In and Survey

By this point, you'll be actively contributing to projects and making your mark. Your check-in focuses on alignment — ensuring you have the tools, clarity, and encouragement you need to keep performing at your best while staying connected to our team's collaborative rhythm.

6. 90-Day – Challenging & Safety Check-In and Survey

At the 90-day mark, you'll reflect on how far you've come and look ahead to new challenges. This stage emphasizes psychological safety — creating a space where you can speak up, challenge ideas respectfully, and take smart risks. We believe that innovation thrives when people feel safe to bring their whole selves to work and stretch beyond their comfort zones.

Onboarding Day One: Program Schedule

Date: Monday, May 4, 2026

Objectives - Day One - Introduction

- Learn about Cover Whale and our Culture
- Gain access to our systems and tools
- Meet the Team

		What functional area?	Who are the key people to meet with?	What should they learn or take away from their time with them?
